File this under the coolest TV couple and the actors that play them: **KaDee Strickland** and her TV hubby **Paul Adelstein** on ABC's *Private Practice*. KaDee gave *Glamour* an exclusive behind-the-scenes look into her life on (and off!) the set, and why tonight's episode will change *everything*.

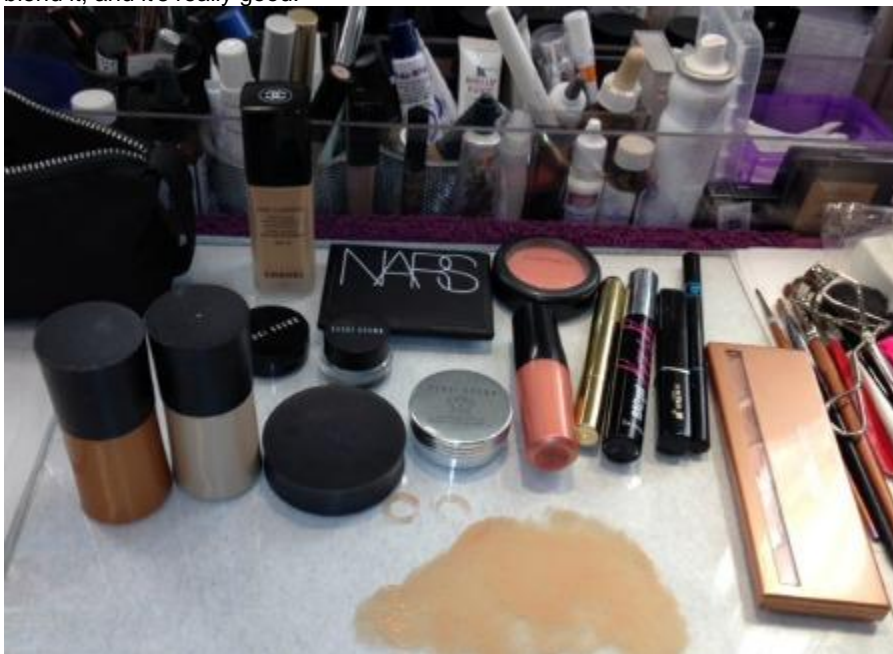

**The vacation spot I'm most obsessed with is:** Italy! Never done it. And I might be going soon. First time!

**The item in my closet I'm most obsessed with is:** My Rag & Bone blazer. I'll wear that thing until it falls off me. I love it! Rag & Bone is probably the thing my business manager would love to undo for me.

**My girl crush is:** **Jessica Chastain**. When I saw *Tree of Life*, I couldn't believe it. I couldn't get over her. I met her at a party one night and couldn't help but go up to her, and we had a lovely conversation. She's the real deal, and my girl crush for sure! She's a very special human being, and I think we'll see her on-screen for as long as she wants to be.

**I could go bankrupt buying:** Rag & Bone, and food! Rag & Bone is so easy to alter. It's beautiful, it's comfortable, and it's a little tomboy and a little ladylike. They are wonderful. They are my throes of passion.

**My favorite make-up products are:** I'm a real big fan of **Sircuit Skin**, especially their eye serum and day cream, which smells like vanilla. **Taye Diggs** always comments when I wear it. All-natural, and it's wonderful. I also love **Kate Somerville's** products. She's got a new one DermalQuench Liquid Lift. Love it! Her face wash is great after a full day in makeup. I'm a big fan of Oraia. You could sell your soul for the amount of money it costs, but it's a serum, and it's really great. I'm a big fan of coconut oil. It's a wonder product for the skin and hair. You get your bang for the buck. And you can also cook with it! **Tarte** and **NARS** are great too. For foundation, I'm doing well with **Giorgio Armani** and **Jane Iredale**. Those are my favorites. I'm a big fan too of **Koh Gen Do's** spa stuff that takes makeup off. That stuff is great. And I love **Laura Mercier's** body creme. I love a good product. I love my **Clarisonic**. **Aesop** makes a really nice lip product, and I love a good **Burt's Bees**. I've also done very well with a **Maybelline Mineral Powder Foundation**. You get a couple of colors and blend it, and it's really good.

Charlotte's make-up kit on set.
